Govee RGBIC TV Light Bar

# Safety Instructions

Read and follow the safety instructions below:

- The light bars is not waterproof. Avoid exposing it to splashes or drops of water.
- The working temperature should be between -10°to 40°C (14°to 104°F).
- The internal light source of the light bars cannot be replaced. If damaged, the light bars must be replaced.
- Do not let children install the light bars alone.
- Avoid installing the light bars near heat sources.
- External dimmers cannot be used with the light bars.
- Avoid installing the light bars near potentially dangerous sources (e.g., candles, liquid-filled objects).

# Introduction

Thank you for choosing the Govee RGBIC Light Bars. The Govee RGBIC TV Light Bars provides vibrant, ambient light, ideal for TVs. Our smart sound technology can perfectly synchronize sounds emitted from video games or movies to your lights, significantly enrichening your visual experience.

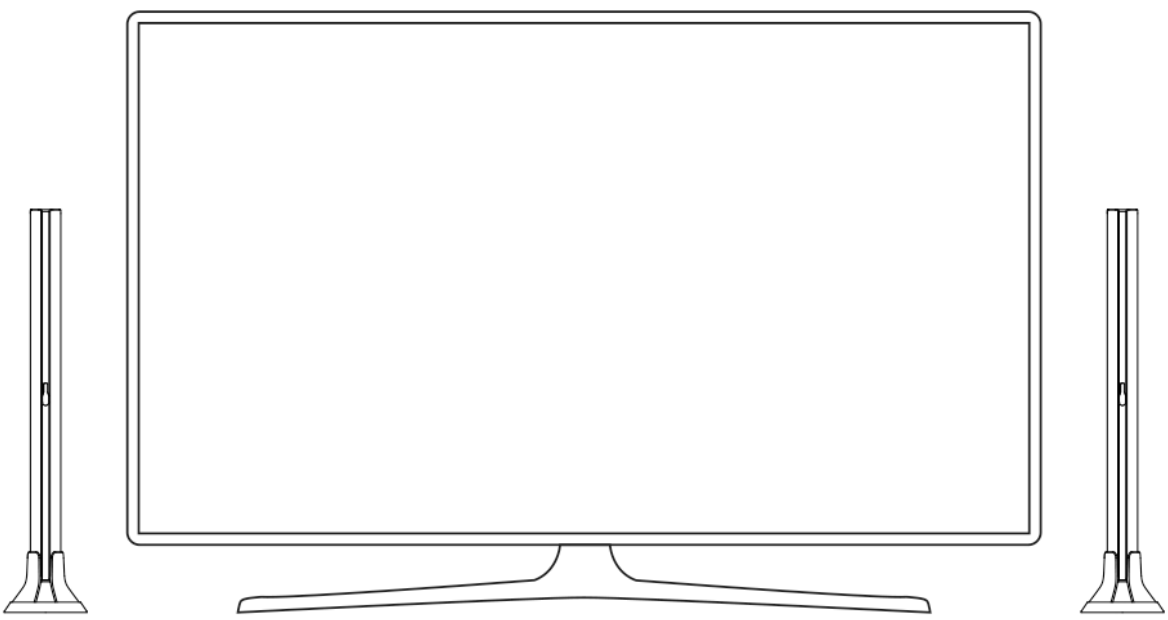
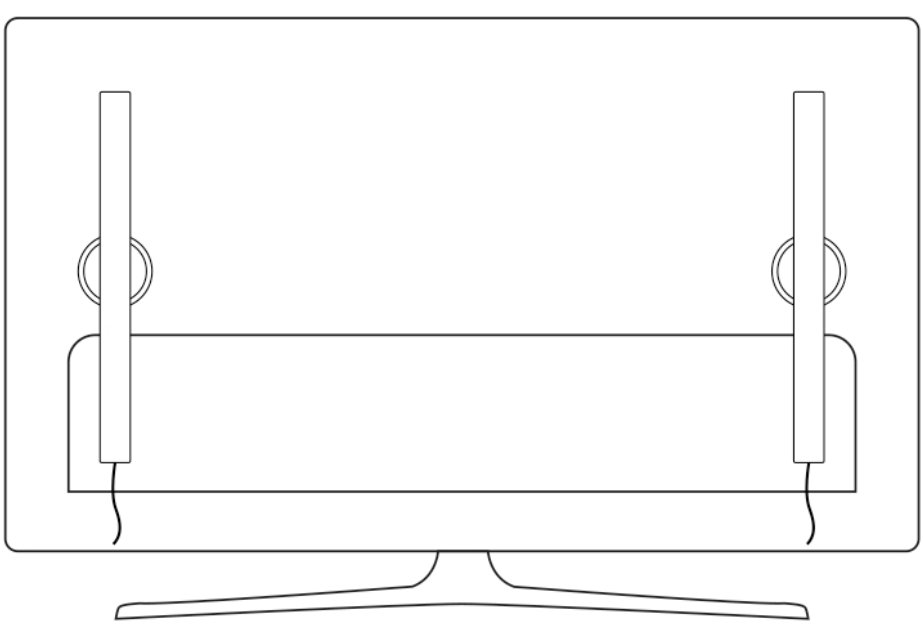
Screen Mounting Bracket

# Installing Your Device

❶ Place the light bars on both sides of the table or mount them to the TV screen with the mounting bracket.

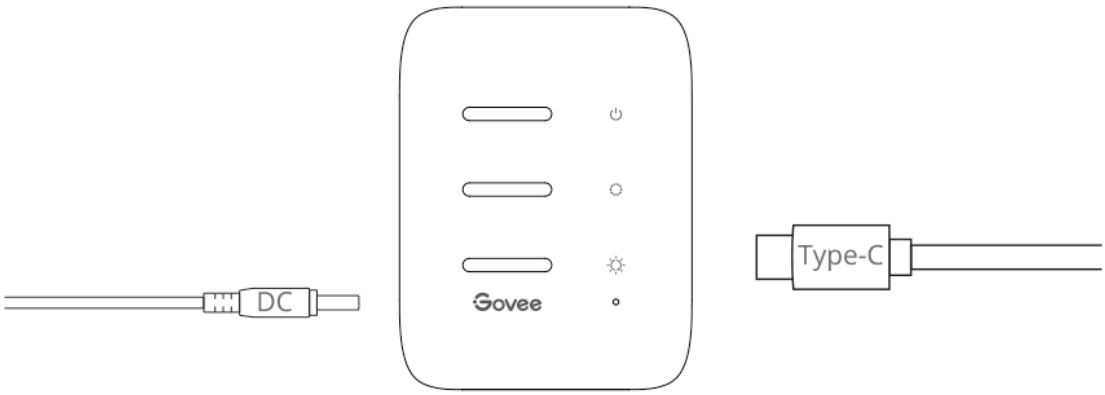




❷ Connect the light bar cable to the control box.

❸ Power on the adapter and connect it to the control box.

❹ Installation completed!



# Pairing Your Device with the Govee Home App

What You Need:

● A Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands. 5GHz is not supported.

❶ Download the Govee Home app from the App Store (iOS devices) or Google Play (Android devices).

❷ Turn on the Bluetooth in your smartphone.

❸ Open the app, tap “+” icon in the top right corner and search “H6046”.

❹ Tap the device icon and follow the onscreen instructions to complete pairing.

# Specifications

| | |

| **Power Input（Lamp）** | 12VDC 2A |
| **Light Displaying Technology** | RGBIC |
| **Working Temperature** | -10° to 40°C (14° to 104°F) |

# Troubleshooting

❶ Cannot connect the device to the Govee Home app?

- Ensure the device is powered on.
- Check if the Bluetooth on your smartphone is enabled or try connecting with another smartphone.
- When connecting for the first time, ensure your smartphone is close to the device.
- If you're still experiencing a connection error, delete the connected device from the "My Device" page on the app. Then, reconnect to the Govee Home app, following the instructions provided previously.

❷ The device lost connection?

- Ensure the device is powered on.
- Shorten the distance between the device and the router to less than 50ft, then reconnect.
- If the device continues to lose connection, delete the connected device from the 'My Device' page on the app. Then, reconnect to the Govee Home app, following the instructions provided previously.

❸ The synchronization effect for Music mode does not work properly.

- Ensure the control box is close to the music source, which will help the mic pick up sounds better.

❹ Can multiple users control one device?

- Ensure the control box is close to the music source, which will help the mic pick up sounds better.
- If multiple users want to control the same device, ensure that they are all using the same account.
