

User Manual

Model: H6052
Govee RGBICWW Table Lamp

Safety Instructions

Read and follow all the safety instructions:

- The lamp is not waterproof. Avoid exposing it to splashing or dripping water.
- The operating temperature should be within -10° to 40°C (14° to 104°F).
- The lamp's internal light source cannot be replaced. If it breaks, you must replace the entire lamp.
- The lamp and the power adapter are meant to be used together. Do not attempt to use either of them with other devices.
- Do not use the lamp with a dimming driver.
- Avoid using the lamp near heat sources.
- Avoid using the lamp near potentially dangerous sources (e.g., candles, liquid-filled objects).

Introduction

Thanks for choosing the Govee RGBICWW Table Lamp. This Table lamp emits warm, vibrant colors to help you sleep peacefully or awake gently. It is also equipped with incredible lighting effects. With smart voice control, you can light up your life hands-free.

Installing Your Device

- 1 Insert the other end of the cable into the Type-C charging port.
- 2 Power on the adapter.

Pairing Your Device with the Govee Home App

What you need:

- A Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands. 5GHz is not supported.
- ① Download the Govee Home app from the App Store (iOS devices) or Google Play (Android devices).

- 2 Open the app, tap the "+" icon in the top right corner and search for "H6052".
- 3 Tap the device icon and follow the onscreen instructions to complete pairing.

Specifications

Input	12VDC 1A
Lumen	450lm
Color	RGBICWW
Color Temperature	2200K-6500K
Working Temperature	-10° to 40°C (14° to 104°F)

Troubleshooting

- 1 Cannot connect to the Govee Home app.
 - Check if the device is powered on.
 - Check if Bluetooth on the smartphone is enabled, or try connecting with another smartphone.

- When connecting for the first time, ensure the smartphone is near the device.
- If the connection error still exists, please delete the connected device from “My Devices” on the app. Reconnect to the Govee Home app by following the instructions provided previously.

② Wi-Fi disconnected or failed to connect?

- Check if the device is powered on.
- Do not skip the Wi-Fi connection steps during the device pairing process.
- Ensure your Wi-Fi router is 2.4GHz (5GHz is not supported).
- Ensure you entered the correct Wi-Fi password during the Wi-Fi set up process.
- Try using another smartphone to pair with the device to ensure your network is working properly.
- Shorten the distance between the device and the Wi-Fi router to less than 50ft, then reconnect.

③ Cannot connect to Alexa or Google Assistant.

- Ensure the Wi-Fi connection is stable and working properly.
- Go to “User Guide” on the app Settings page to pair the device again.

👤 Can multiple users control one device?

- Each device can only be controlled by one account.
- If multiple users want to manage the same device, ensure they all use the same account.
